WELCOME

Dear Colleagues

It is a great honor and pleasure to announce the 39th meeting of the ISOBM (International Society of Oncology and BioMarkers) which will take place in Firenze, Italy, 14-19 October 2011.

On behalf of the ISOBM Society and the Congress Organizing Committee, we would like to invite scientists and clinicians interested in all aspects of Cancer to attend the meeting and participate actively.

The scientific scope of the meeting is to provide an up-to-date overview on Cancer development, Cancer immunology, Cancer genetics as well as focusing on new treatments. The major role of Tumor Markers in Cancer diagnosis, treatments utility, clinical trials and prognosis, will be updated and re-evaluated.

The scientific program will include state of the art Plenary Lectures, Podium and Poster presentations, Roundtable discussions, Tumor Differentiation Workshops, Clinical Workshops on New Drugs in Oncology, plus much more.

We anticipate that the Scientific Program will be stimulating and challenging.

The Sheraton Hotel & Congress Center will provide excellent congress facilities.

Florence with its famous City Dome and Tower, theatres and museums will offer a cultural experience and are all waiting for you. The well known Italian Cuisine does not need any introduction. Obviously we encourage you to stay and see more of the city and its beautiful surrounding areas, but if you are looking for something a little more relaxing—why not try a trip to Tuscany or along the wine road 222. Only 90 minutes away are the fabulous Siena, Pisa and San Gimignano not to be missed.

Looking forward to welcome you in Firenze

Dr. Andrea Nicolini
Congress President
University of Pisa
Dept. of Internal Medicine
Pisa, Italy

Prof. Vivian Barak
Congress Vice President
Hadassah- Hebrew University Medical Center, Dept. of Oncology
Jerusalem, Israel

Preliminary Scientific Topics

◊ BREAST Cancer
◊ OVARY Cancer
◊ LUNG Cancer
◊ GI Cancers - (GASTRIC, COLORECTAL, LIVER, PANCREATIC)
◊ UROLOGY Cancers
◊ THYROID Cancer
◊ ENT Cancers
◊ NEUROENDOCRINE Cancers
◊ MELANOMA (Skin and Uveal)
◊ LYMPHOMA and LEUKEMIA
◊ PATHOLOGY & IMAGING
◊ GENETICS of CANCER
◊ PROTEOMICS & EPIGENETICS
◊ IMMUNOLOGIC MECHANISMS in CANCER
◊ INFLAMMATION and CANCER
◊ STEM+ CIRCULATING CELLS
◊ NEW ANTI CANCER TREATMENTS
◊ TUMOR MARKERS in CLINICAL TRIALS
◊ TUMOR RELATED ANEMIA
◊ VIT D DEFICIENCY IN CANCER

Sessions

◊ Plenary Lectures
◊ General Sessions
◊ Poster Sessions
◊ Round Tables

Workshops:

◊ TD
◊ Clinical
◊ Statistics and presentations

Awards

◊ ABBOTT
◊ Young Investigator Awards x 5, 1000 Euro each
◊ After meeting Course for junior faculty and fellows.

CME – accreditation will be provided
